

SUM26001 Final Project Report Expectations

This final report is the the “paper” of this course, which will take 60% of students’ final grade.

The report should be a submitted as a GitHub repository link, through the class’s website:

<https://classproject-iss-bfsu.azurewebsites.net/report/>

required components of the GitHub repository:

1. A README.md file that contains the following information:

- Description of the project, including the problem statement, objectives, and progress made / lessons learned.
- List of member names, student IDs, and each member’s contribution to the project.
- A link to the final report pdf. And a link to the qmd file which generated this pdf.
